

# FRONIUS SYMO HYBRID

The flexible choice for individual storage solutions

apINverter Integrated data communication

Dynamic Peak Manager

Smart Grid Ready

Zero feed-in

Multi Flow Technology

With power categories ranging from 3.0 to 5.0 kW, the Fronius Symo Hybrid allows surplus energy from a photovoltaic system to be stored in various batteries.

The Fronius Symo Hybrid is compatible with the Fronius Solar Battery as well as storage devices from other manufacturers, such as LG Chem or BYD, and thus the ideal hybrid inverter. Intelligent Multi Flow Technology enables AC and DC coupling of battery storage. In addition, loads are supplied at the same time as the battery is being charged – even in emergency power mode.
